# Please help us map stinknet!

1. **Download** the Survey123 app on your smartphone

2. **Scan** the QR code in the app or with your camera

3. If prompted, select **"Open in the Survey123 field app"** and **"Continue without signing in"** (if you don't have an account). You should now see this survey form.

4. Close the form (unless you're standing by some stinknet). You should now see the survey saved to your app, ready for whenever you encounter stinknet!
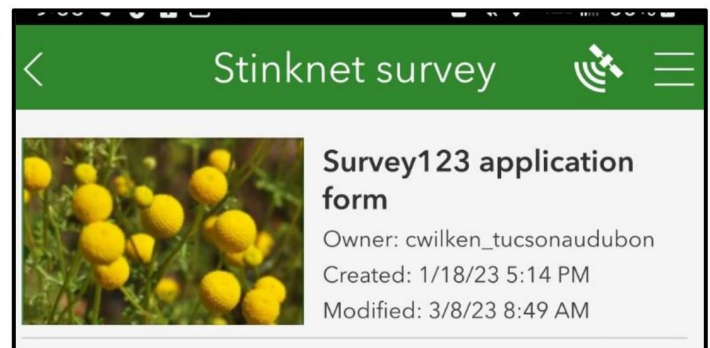

Thank you for mapping so we can protect the desert!
